- A tennis game begins with a coin toss and service from one player. The server must stand behind the baseline and hit the ball diagonally into the opponent's service box.
- The court is 78 feet long and 27 feet wide for singles matches, with boundary lines marking the sidelines, baseline, and service lines.
- If the ball lands outside the boundary lines, it is considered out, and the point is awarded to the opponent.
- A fault occurs when the server misses the ball or hits it into the net; double faults mean losing the serve.
- A tie-break is played when the score reaches 6-6 in a game, with players competing to reach 7 points first, usually by a two-point margin.

Scoring System in Tennis

Many learning packets emphasize understanding the unique scoring terminology and sequence:

- How are points scored in a game?
- What does 'love,' '15,' '30,' '40,' and 'game' mean?
- How does the game progress from deuce to advantage?
- What is a set, and how many games does it typically include?
- How does a player win a match?

Sample Answer Breakdown:

- Points in a game progress as love (0), 15, 30, 40, and then game point. When players reach 40-40, it is called deuce, and a player must win two consecutive points?first advantage, then the game.
- A set usually consists of winning at least six games with a minimum two-game lead. Matches are often best of three or five sets.
