Sample Business Law Past Questions and Well-Structured Answers

Question 1: Define a contract and outline the essential elements required for its validity.

Sample Answer:

A contract is a legally binding agreement between two or more parties that creates mutual obligations enforceable by law. For a contract to be valid, it must contain the following essential elements:

- **Offer:** A clear proposal made by one party to another indicating a willingness to enter into a contract on specific terms.
- **Acceptance:** The unequivocal agreement by the offeror to the terms of the offer.
- **Consideration:** Something of value exchanged between parties, which can be money, goods, services, or a promise to act or refrain from acting.
- **Legal Capacity:** Parties must have the legal capacity to contract, meaning they are of sound mind, not minors, or disqualified by law.
- **Intention to Create Legal Relations:** The parties must intend that the agreement results in legal obligations.
- **Legality of Purpose:** The contract's purpose must be lawful.

Failure to satisfy any of these elements may render a contract void or voidable.

Question 2: Discuss the concept of agency and the legal implications of an agent acting beyond their authority.

Sample Answer:

Agency is a relationship where one party (the agent) is authorized to act on behalf of another (the principal) to create legal relations with third parties. This relationship can be created through agreement, ratification, or by law.

Legal implications of an agent acting beyond their authority include:

- If an agent exceeds their authority (ultra vires), the principal may not be bound by the agent's actions unless:
 - The principal ratifies the unauthorized acts.
 - The third party was unaware of the excess authority.
- In cases where the agent acts without authority, they may be personally liable to third parties unless there is apparent authority or estoppel.
- Proper disclosure of agency is crucial; failure to do so can impact liability and the enforceability of contracts.

In summary, acting beyond the scope of authority exposes the agent to personal liability, and the principal may not be bound unless ratification occurs or the third party was unaware of the agent's limitations.
